

Hassan Amin

Senior Product Manager

linkedin.com/in/hassanamin- | hassan.amin930@gmail.com | Portfolio | +923000231859 | Islamabad, Pakistan

PROFESSIONAL SUMMARY

Product Manager with 5+ years spanning B2B SaaS, EdTech, and PropTech. Skilled in product strategy, roadmapping, and end-to-end delivery, built on a UI/UX design foundation and rigorous, data-informed decision-making. Proficient in product analytics (PostHog, BigQuery, SQL) and experimentation (A/B testing, feature flagging, funnel analysis), and fluent in market-opportunity frameworks (SAM, TAM, PMF). Proven track record of driving activation, retention, and revenue growth and leading cross-functional teams to launch scalable products in competitive markets. Increasingly focused on applying AI/LLMs to real product workflows.

PROFESSIONAL EXPERIENCE

AIO App , Senior Product Specialist

San Jose, California | Apr 2025 – Jun 2026

- Drive product for AIO's restaurant platform (POS, mPOS, KDS) through a high-growth phase that closed an \$18M Series A funding round.
- Own feature-led execution contributing to \$25K in MRR by improving restaurant acquisition, operational workflows, and retention.
- Led launches delivering a ~32% improvement in staff efficiency and a ~27% reduction in order-handling delays.
- Redesigning POS and mPOS workflows, decreasing support tickets by 25% and improving server order-taking speed by 18%, boosting throughput during peak hours.
- Ran iterative testing with a Restaurant Advisory Panel plus on-the-ground server and manager sessions, raising post-release POS adoption ~40%.

11prop , Product Consultant

Dubai, UAE | Jun 2026 – Jul 2026

- Scaled qualified leads from ~0 to 10 leads/month via redefining the acquisition funnel.
- Set up the startup's early product operating rhythm, workflows, MCP integrations, and task automation - cutting manual effort across a lean team.
- Led a designer + developer through a UI/UX revamp, using Claude Design and the Figma MCP to speed design-to-build handoff and testing.
- Launched Propt (0→1), owned a two-quarter roadmap, and instrumented it with PostHog and a defined event taxonomy for data-informed iteration.

Taleemabad

Product Manager

Islamabad, Pakistan | Jul 2022 – Mar 2025

- Redefined key metrics and product roadmap, aligning organizational goals with achievable targets. Improved strategic planning, contributing to a 57% increase in DAU and an additional \$1M in seed funding.
- Led a cross-functional team of 2 designers and 5 engineers to deliver a B2G product, driving \$500K in ARR.
- Developed and launched an Offline App Solution to target TAM of 349,000 schools, expanding SAM by 17%.
- Designed and launched a School Admin Dashboard, increasing WAU from 17% to 46%, enhancing platform utilization.
- Created and optimized internal tools using Retool and LLMs, reducing deliverable times from one week to four hours and accelerating go-to-market.

Product Designer

Islamabad, Pakistan | Jan 2022 – Jul 2022

- Redefined core product features to improve usability for non-tech-savvy users, increasing engagement by 13%.
- Streamlined design-development processes by creating reusable components in Figma and Storybook, reducing development time by 3x and ensuring consistency.
- Conducted a persona refinement exercise, enabling user-centered product design.

Vector Coder, UI/UX Designer

Faisalabad, Pakistan | Oct 2020 – Jan 2022

- Designed and transitioned from conventional onboarding to an in-app onboarding process, leading to a 36% increase in engagement.
- Designed a product customization feature, launching the platform as a best-seller and driving a 120% sales increase.
